

BTA-450A + BM-500

Automatic L Type Shrink Packaging Machine

Packaging Machinery

Shrink Packaging Machines

01 Description

BTA-450A It is a fully automatic L sealer, widely used in pipelining work for large quantity package with high work efficiency, installed with pin hole device, adjustable film feeding system and adjustable conveying table, meets different requirements for different products and it has a kissing device for packing the small products.

02 Features

- 01 Adopts heat resistant alloy cutter plated Teflon, results in good sealing, without melting the film and any smoke pollution.
- 02 Assembles one horizontal and one erect sensor for the entrance to the sealer it is easy to switch over, even for some thin products, it is also easy to pack them.
- 03 The length of film feeding, controlled by magic eye and counter, also fixes an inductive motor for collecting wasted film automatically.
- 04 When pack different sizes of products, it is simple to adjust, need not to exchange any molds or any bag making device.
- 05 To pack different size of products together for sales promotion effect.
- 06 Adopts OMRON digital temperature controller with PID function, sealing temperature is extremely sensitive and accurate, can set temperature optionally, the cutter itself has a protective function, avoid from damage the products.
- 07 The machine fixes an organic safety glass cover, with alarm function, so that the operator is safe.
- 08 The machine can be connected with the production line, which is no need additional operator.

03 Technical Specification

Model	BTA-450A	BM-500
Max Packing Size	(L+H) ≤500mm (W+H)≤430mm (H)≤130mm	(L)700×(W)450×(H)250mm
Max Sealing Size	(L)550×(W)450mm	(L)1200×(W)500×(H)300mm
Packing Speed	15~30 packs/min	30~50 packs/min
Electric Supply & Power	220V/50Hz 1.3kw	380V/50Hz 12kw
Air Pressure	5.5kg/cm ³	/
Weight	300kg	220kg
Overall Dimensions	(L)1850×(W)1000×(H)1600mm	(L)1350×(W)750×(H)1500mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
