Machine Introduction

This machine is compact, accurate, and beautiful. It is used for paper baking up in carton industry. All parts are susceptible to corrosion are manufactured using stainless steel; so electric elements are safe and reliable. The motor use step-less speed regulation technology and is suitable for all kinds of paper with different thickness. The central distance between drums can be adjusted according to different thickness of the paper to keep proper clearance and control gluing amount. The machine can be widely used in industries such as packaging & printing, paper box and carton, book cover, etc. With advantages as thin and uniform gluing, steady performance, and reliable operation.

Technical Specifications

Model	SJ-720
Gluing width	700 mm
Power	220V/120W
Weight	50 kg
Machine Dimension	1030 x 430 x 360 mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
