

Machine Introduction

Fully automatic cylinder screen printing is a kind of auto flat screen press of high speed and high precision. The technology and main parts of the machine are imported. We managed to make progress in developing performance of the machine and make it widely used in screen printing industry. It is suitable for soft and half-soft materials of Frequency control of motor speed is monitored and controlled automatically, PLC program controller control the whole machine. Centralized control is adopted in this machine with easy operation and high sensitivity. It reaches an advanced level in the country. Only one person is needed to operate the press. This machine can be used in many kinds of print, especially colors of golden and credit card, and so on. The full oil, fresh color and stereoscopic model make the press better than others. **The complete set of this machine is equipped with Automatic Screen Printing Machine Model XF-1020, Automatic UV Curing Machine Model XF-1020UV, and Automatic Stacker Model XF-1020S.**

Technical Specifications

Model	XF-1020 + XF-1020UV + XF-1020S
Max. paper dimension	1020×720mm
Min. paper dimension	560×350mm
Max. printing dimension	1020×700mm
Paper thickness	120-250 g/m ²
Border	≤13mm
Printing plate dimension	1280×1140mm ²
Max. printing speed	1000-3000 pieces/h
Power	10.4kw
Weight	5000kg (XF-1020) + 1000kg (XF-1020UV) + 1200kg (XF-1020S)
Overall dimensions	11350x2720x1430mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
