

YZFM

Automatic Pre-coated Film Laminating Machine

*YZFM-920 model

Graphic Machinery

Laminating Machines

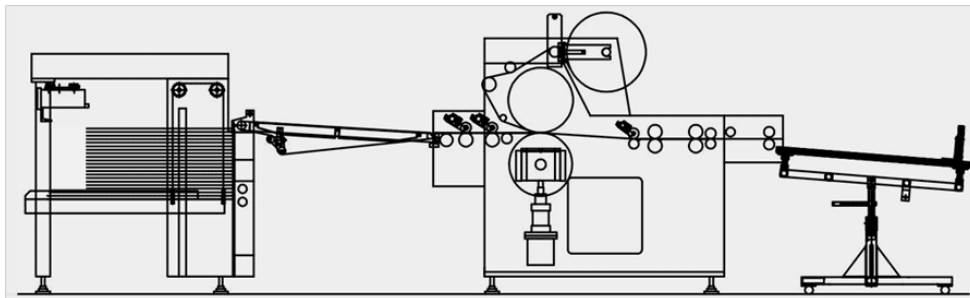

01 Description

YZFM series of automatic laminating machine is a pre-glued film laminator which is designed and manufactured according to the market needs. This machine can finish both lamination and separation processes at a time. Equipped with PLC control in the whole machine for paper transportation, high automatic equipment can shorten production procedure, enhance efficiency. The machine adopts pre-glued film for the lamination of packing bags, books, maps and drawings etc.

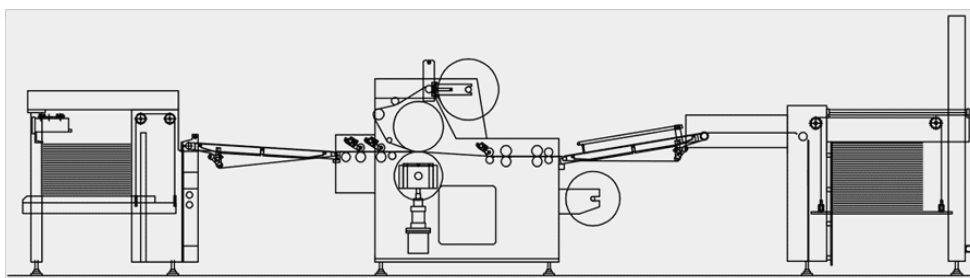

02 Features

- 01 Using converter to control speed, running steady
- 02 Because the main machine controlled by electric equipments, only one operator needed
- 03 The main machine use oil to keep constant temperature. So the temperature of heating roller's surface is average
- 04 Ø380mm large diameter mirror heating roller, temperature lasting not easily erosion, production speed is high.
- 05 Main pressure roller uses high temperature resistant material, quality is stable
- 06 Equipped with film perforating and separating unit
- 07 Compounded heating roller adopts polishing technique, enhance quality of the products.

YZFM

Automatic Pre-coated Film Laminating Machine

*YZFM-740 model

04 Technical Specification

Model	YZFM-740	YZFM-920	YZFM-1040
Max. paper size	740x1040 mm	920x1040 mm	1040x1040 mm
Min. paper size	355x355 mm	325x325mm	325x325mm
Paper thickness	105-450 gsm	105-450 gsm	105-450 gsm
Height of feeding pile	950mm	950mm	1050mm
Max. laminating width	740mm	920mm	1020mm
Laminating Speed	10-50 m/min	10-50 m/min	10-40 m/min
Laminating Temperature	85-125°C	85-125°C	85-125°C
Working pressure	5-20 MPA	5-20 MPA	5-20 MPA
Power	380V/50Hz, 29.7kw	380V/50Hz, 29.7kw	380V/50Hz, 32kw
Total Weight	2100kg	2400kg	3000kg
Overall Dimensions	3850x1150x1450 mm	5100x1700x2200 mm	9500x2400x2200 mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
