

Machine Introduction

The MSCB series automatic stripping machine is designed and manufactured by the Miaoshi printing machinery company in order to solve the problem of difficult taking out finished products by workers after die cutting cardboard. Main purpose: it is suitable for automatic taking out the products like cloths label, card, medicine boxes, cigarette boxes, small toy boxes, etc. The advantage of the machine: Use the computerized PLC touch screen to adjust the date which is more convenient for users, the main movement is combined by the hydraulic system and ball screw driven by servo motor which has low failure rate and more agile.

Features:

After die cutting, use the machine to stripping automatically which is more convenient for workers to take out the finished products, high production, less cost and high efficient for customers.
