Machine Introduction

The machine is equipped with an paper overlap regulator to feed paper easily.

Flying knife and perforating system

Corrugating delivery system which can collect the paper better

The jogger collects paper.

Features

1. SCHNEIDER frequency inverter equipped for infinite speed variation ensures speed adjustment much more convenient and efficient, and makes the machine run stably and quietly.
2. Enlarge size of chromed heating roller is mounted with build-in oil heating system which provides balanced laminating temperature and owns excellent temperature persistence.
3. SCHNEIDER PLC system realizes automatic paper separation, breakdown alert for self-protection etc. functions.
4. Pneumatic film unwinding system positions film roll more accurately and makes the loading and unloading of film roll and film unwinding tension much more convenient.
5. Double sets of serrated perforating wheels provide different choices for different specifications of sheets and film.
6. Perfected traction adjusting system makes traction adjustment more convenient and efficient.
7. Corrugating delivery system and vibrating receiving system ensure paper collection more regular and convenient.

Technical Specifications

Model	SF-720C	SF-920C	SF-1100C
Max Paper Size	720mm	920mm	1100mm
Paper Thickness	100-500g/m ²	100-500g/m ²	100-500g/m ²
Laminating Speed	0-30m/min	0-30m/min	0-30m/min
Gross Power	18kw	19kw	20kw
Weight	1700kg	1900kg	2100kg
Overall Dimensions	4600x1560x1500mm	4600x1760x1500mm	4600x1950x1500mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
