CYCF-1200A

Automatic High-Efficiency Powder Removing Machine

Machine Introduction

CYCF-1200A-type machines are used in addition to powder in the printing surface treatment, removal of paper in the printing by the spray of dust attached to ensure the quality of finishing a must, it applies to a variety of printing surfaces in addition to powder can be used alone, are also available on the polishing machine, laminating machine with the use of pressure. Working Principle: first put the paper on the feeding table, then through the up and down rollers double-sided to removing the powder, by the conveyor belt after two round brushes Rolling Road and drain on paper brush to make the dust sucked by the suction fan.

Technical Specifications

Model	CYCF-1200A
Max. Process size	1000*1200mm
Min. Process size	350*400mm
Paper thickness	≥180g
Process line-speed	20~40m/min
Total power	2kw
Machine's weight	1100kg
Machines size	2780*1680*1570mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
