

Machine Introduction

SAFM serial fully automatic laminator is designed for thermal film lamination. This laminator is composed of feeding unit, laminating unit and paper separation unit and paper collection system. The electric and pneumatic system is equipped with programmable control (PLC). Heating roll adopts built-in oil heating system to precisionize laminating temperature. This machine centralizes the features of compact structure, high automatization and humanized operation design.

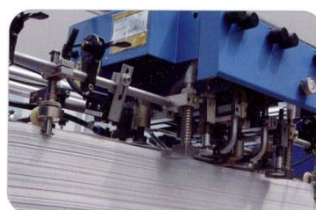

Separation system

Pneumatic separation system to separate the paper stably and quickly.

Anti-curve device

It can avoid paper curvature due to shrinkage of film and make the paper smooth. It has the features of easy adjustment and no shaking.

Paper feeding system

Paper feeding system: equipped with paper pre-stacker, servo controlled feeder and paper miss sensor protector to guarantee the sequence of paper feeding.

Delivery

Corrugating Delivery System which can collect the paper better.

Features

1. Overlapping regulator: Servo control and front lay to guarantee accuracy of paper overlapping.
2. Smart constant temperature heating roller: heating roller equipped with built-in heater, temperature measuring sensor and temperature controller to make the temperature stable and constant.
3. Film shaft: air shaft with dividing rule make the loading, unloading and positioning of the film more accurate. The extension of film is controlled by pneumatic breaker.
4. Conveying table is furnished with air aspirator and front lay etc. to regulate paper conveying and overlap and improve lamination prevision.
5. Automatic stacker receive the sheets quickly in order without stop the machine as well as counter the sheets.
6. Electrical system: Schneider PLC inverter Omron and other international brand parts make the machine run smoothly, easy adjust.

Technical Specifications

Model	SAFM-800A
Max Paper Size	780x1040mm
Min Paper Size	195x300mm
Laminating Speed	0-65m/min
Paper Thickness	100-500gsm
Gross Power	22kw
Overall Dimensions	5300x1650x1700mm
Weight	3000kgs

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
