

Machine Introduction

Our high-speed reel paper die cutting machine is manufactured for cutting various kinds of paper such as PE coated paper. It is used in printing, packaging, paper cup manufacturing, etc. Driven by a step motor, reel paper is automatically fed to the die-cutting area. It is equipped with a built-in touch screen which allows the cutting length to be adjusted. The pneumatic clutch largely improves the cutting speed and reliability. The high-speed reel paper die cutting machine is suitable for both blank and printed paper.

Technical Specifications

Model	JMQ930
Maximum area of cutting zone	930*550mm
Cutting Pressure	280ton
Working speed	90-110 times/min, different paper thickness
Power	11kw
Applicable raw paper	120-600gsm
Air pressure request	0.7Mpa, 1.5m ³ /min
Machine weight	7500kg
Main machine packing size	4000(L)*2100(W)*1850(H)mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
