

# DQ-15K

## Ultrasonic Lunch Box Lid-Sealing Machine

### Technical Specifications

|                  |                                                                     |
|------------------|---------------------------------------------------------------------|
| <b>Model</b>     | <b>DQ-15K</b>                                                       |
| Output power     | 1800W                                                               |
| Frequency        | 15kHz                                                               |
| Power supply     | AC220V, 60Hz                                                        |
| Up/down distance | 75mm                                                                |
| Sealing time     | 0.01-9.99 sec                                                       |
| Air supply       | 0.01-0.7MPa                                                         |
| Sealing length   | 150mm                                                               |
| Overall size     | Sealing machine : 650x400x1100mm<br>Wave-making box : 450x470x170mm |
| Weight           | 100kg                                                               |

\* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
