

Machine Introduction

JBZ-S Series double-sided PE coated paper cup forming machine is a multi-station full-automatic machine producing double-sided PE coated drink cups, ice cream cups or conical vessels of other food through continuous process of paper feed, ultrasonic medium welding, tube forming, cup rabbit lubrication, oil injection, bottom flushing, duplex bottom heating, bottom knurling, upper mouth hemming and finished product stacking. Because of ultrasonic adhesion technology, the product is suitable for double-sided PE coated paper full printed drink cups, ice cream cups and other conical vessels.

Features

1. Adopt ultrasonic wave technology bonding, which ensures high bonding strength and handsome appearance.
2. Precise box type indexing cam structure, the parts all adopt standard production, have high generality and good exchange performance, and facilitate equipment maintenance.
3. The paper holder is provided with paper feeding detection function, so that it will alarm automatically when the paper is less than a certain amount. (optional according to the demand of the customer)
4. The heat seal barrel forming part is provided with non-cup-barrel detection, alarming and sopping functions, which enhance the automation degree of the machine. (optional according to the demand of the customer)
5. The bottom-punching part is changed into mechanical probe type detection which ensures the detection precision and the pass rate of finished products.
6. The machine adopts high-position stopping device, so that the machine always stops at the highest point, the mold and the heating furnace are fundamentally separated and the paper cup is prevented from being burned.
7. The large vertical shaft of the machine adopts oil tank lubricating, which ensures that the vertical shaft is soaked in the lubricating oil and is not damaged after long-time running.
8. The company has improved the rolling part, the bottom punching part, the heating part, the rolling wheel and paper cutting, being capable of producing thick paper which is more than 300g/m^2 , and is free of water seepage and water leakage.

Technical Specifications

Model	JBZ-S12	JBZ-S16	JBZ-S22
Specification of paper cup	6oz, 8oz, 12oz	12oz, 14oz, 16oz	16oz, 24oz
Paper material	Single-sided, double-sided PE coated paper		
Outer diameter of cup rabbet	50-95	50-95	50-95
Outer diameter of cup bottom	35-70	35-70	35-70
Cup height	50-120	100-150	100-180
Bottom depth	≤10	≤10	≤12
Conicity	2-8o	2-8o	2-8o
Rated productivity	40-50pcs/min	35-45pcs/min	30-40pcs/min
Power supply	380V 50Hz		
Total power	6.5KW	8KW	
Weight	1600kg	1700kg	1900kg
Packing size (LxWxH)	2800x1350x1800mm 800x750x1300mm	3000x1450x1900mm 800x750x1350mm	3300x1450x2000mm 800x750x1350mm
Air pressure request	0.2m ³ /min; 0.6MPa (provided by customer)		

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
