Machines

01 Description

The trademark BICHENG is a well-known brand from TAIWAN. BICHENG DGM has passed UKAS ISO9001:2000 Certification. As European models, BC1050 series die-cutting machine and die-cutting & stamping machine feature high precision, high speed, durability and stable performance. They adopt international leading configuration and have come up to international leading level in performance.

- **BC-1050 Fully Automatic Creasing & Die-Cutting Platen**
- **BC-1050S Fully Automatic Die-Cutting Platen With Waste removal**
- **BC-1050F Fully Automatic Die-Cutting & Foil Stamping Machine**

02 Features

- 01 Automatic Die-cutting machine is mainly used for high precision cardboards die-cutting, pressed concave-convex, and below 4mm size corrugated paper die-cutting work
- 02 Thin paper above 80g/m² can be stably fed, die-cut, and paper delivery
- 03 The feeder with 4 suction and 4 delivery, ensuring smooth operation
- 04 Automatic non-stop feeder and pre-piled paper. Improve production efficiency
- 05 Slowdown paper arrival at front guide buffer gear to improve the die-cutting accuracy
- 06 Automatic die cutting plate box locks design, high security with simple operation
- 07 Unique tooth filled material and a cam exercise to maintain high precision, accuracy, and low noise
- 08 Die-cutting plate frame is integrated molding with good intensity, high precision.
- 09 The back-plate is made of hard durable stainless steel
- 10 Bottom mold steel plate is build with hardness, level, and antirust for accuracy and durability
- 11 Cycling oil cooling system, improving cold and hot molding difference, reducing scrapping rate and test-run pressure
- 12 To increase lifetime of machine, cycling cooling oil circuits are up to 30 groups, 2HP oil pump, with good lubrication and quick cooling
- 13 Nice appearance is up to international level, comparable with the first-class machine products

03 Technical Specification

Model	BC-1050	BC-1050S	BC-1050F
Max paper size	1050 x 740mm	1050 x 740mm	1050 x 740mm
Min paper size	400 x 360mm	400 x 360mm	400 x 360mm
Paper thickness	80-2000g/m2	80-2000g/m2	80-2000g/m2
Corrugated paper	≤4mm	≤4mm	≤4mm
Max machine speed	7500 sheets/hr	7500 sheets/hr	7500 sheets/hr
Max stamping			6000 sheets/hr
Max operating pressure	300T	300T	300T
Min gripping edge size	9.5mm	9.5mm	9.5mm
Max die-cutting range	1040 x 730mm	1040 x 730mm	1040 x 730mm
Max stamping size			1020 x 720mm
Puller shifts			4
Heating zone			12
Die-cutting precision	±0.075mm	±0.075mm	±0.075mm
Holographic foil stamping			±0.075mm
Overall power	19KW	20KW	60KW
Overall weight	14T	16T	16.5T
Overall dimension	6100 x 3600 x 2450mm	7000 x 3600 x 2450mm	7000 x 4000 x 2450mm

04 Brands For Key Components

- 01 Nickel-chromium-molybdenum alloy steel, imported from JAPANESE DID and processed in TAIWAN
- 02 Worm gears and worms, Made of nickel-chromium-molybdenum alloy steel processed in TAIWAN
- 03 Crank bearings, imported from GERMAN SKF, JAPANESE KOYO and NSK
- 04 Bottom punching section, imported from AUSTRIA
- 05 Die-cutting frame: Integrated molding, made in TAIWAN
- 06 Air pump for sucker: GERMAN BECKER
- 07 Oil pump and chiller: Technical cooperation between GERMAN and TAIWAN
- 08 Air pressure clutch: Technical cooperation between GERMAN and TAIWAN
- 09 Main solenoid valve and oil separator: U.S. MAC
- 10 Main motor, made in TAIWAN
- 11 Separator, made in TAIWAN
- 12 Main chain: UK RENOLO
- 13 Other chains: JAPAN EK
- 14 Electric components and buttons: FRENCH TE, JAPANESE OMRON, and GERMAN SIEMENS
- 15 Drive belt and conveyer belts, imported from JAPAN
- 16 Feeder head: 8 suction feeder heads and 8 delivery heads, made in TAIWAN
- 17 PLC: TAIWAN FATEK.
