

Machine Introduction

The machine is designed for envelope tongue to spread glue. It uses air-breathing paper stacking and bottom paper extraction to separate papers. It can be fed continuously without stop. Air-suction split big brum stacks automatically, which is quick and stable. CVT structure adjusts the stacking width, which is convenient and reliable. Cyclic glue spreading ensures the even glue amount. Multi-level temperature control and hot wind dry unit make sure that papers are flat and dry. It is the best equipment for paper pre-gumming around the country.

Technical Specifications

Model	XTJ-400
Maximum operating speed	15000 pcs/h
Range of processed product	120x110mm-380x480mm
Applied paper	80 – 157 g/m ²
Electricity capacity	9.5kw
Machine weight	1200 kg
Machine Dimension (LxWxH)	3500x800x1200mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
