

Machine Introduction

The machine is widely used for binding notebooks, workbooks, calendars and so on. It has the function of automatic cutting, counting, skip binding (up to four step), inserting and closing double wire loops, so the manpower can be saved and waste can be reduced. The machine uses imported step-servo motor, touch screen, electronic parts and pneumatic component. By changing the matched closing bars, various loops diameters can be processed. Optional removable hanger feed unit.

Features

1. Five to ten times faster than manual binding
2. Automatic cutting off
3. Automatic binding
4. Automatic closing
5. This machine add the delivery mechanism on the operation panel, no need to take out the books after binding, machine could put book into the side delivery mechanism through the manipulator automatically after completion of binding. It can improve the work efficiency.

Technical Specifications

Model	JZ-520B
Bound edge	75 mm – 520 mm
Specification of double wire	Pitch: 3:1 1/4"-9/16"
	Pitch: 2:1 5/8"-3/4"
Work speed	Up to 25 books per minute depending on the product and operator
Power	220V/50HZ
Total power	1.5 KW
Air pressure (bar)	6-8
Main dimension (WxDxH)	1150 x 770 x 1350 mm
Net weight	220 Kg
