

Machine Introduction

This machine can push the book automatically, cutting the corner automatically, push the finished book away automatically, which will improve the efficiency twice than normal cutting machine. This machine is control by PLC, touch screen, can cut the round corner very well, easy to change the cutter. This machine uses the special high-accuracy cutter, which use the technology of chromium steel for bottom cutter, it will not have the situation of bottom paper cannot cut well.

Working process:

1. Put the book by manual;
2. Push the book automatically;
3. Push the book from right side to make sure all four side has been pushed tightly, then the cutter will go down to cut the round corner;
4. After cutting, and push part will also go back to origin position, then the left push part will push the finished book to the belt.

Technical Specifications

Model	HB-460
Working speed	18 times/min
Max book width	460mm (Round side)
Min book width	130mm (rounded corner side), manual mode 100mm (rounded corner side)
Max cutting height	80mm
Air compressor	2.5KW / 6-8bar
Power	220V / 1KW
Dimension	(1100+1500 rewinding belt) x730x1430mm
Weight	300kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
