

HB-520PB

Automatic Double Loop Wire Punching and Binding Machine

Machine Introduction

Automatic double loop wire punching and binding machine, was researched and developed for the first time in China. This machine is exclusive machine that can combined the four processes together, the only machine that can solve the problem that the cover is bigger than the inner paper to make the whole book punching and binding together. The machine has above ten items of patent for invention, which can improve the efficiency above 80%, it can produce the product at high speed, such as desk calendar, hanger calendar, notebook, instruction book and so on.

Features:

1. Automatic hanger set
2. Automatic malfunction
3. Chinese and English, can design the language which you need
4. Automatic feed the book, it is easy for workers
5. The machine takes the new slide to make sure the long life and steady

HB-520PB

Automatic Double Loop Wire Punching and Binding Machine

Technical Specifications

Model	HB-520PB
Thickness of punch for one time	1-6mm
Max. punching thickness	13mm, separately to punch each time 2-3mm
Max. punching times for one book	5 times
Pitch	2:1, 3:1
Max. product for feed belt	450-450
Wire feed	Automatic cut the wire, insert the wire and closing the wire
Wire size	1/4" - 3/4" (Pitch 2:1, 3:1) 7/8
Max. binding width	510mm (punch) * 800mm
Min. binding width	100mm (punch) * 140mm, can design for 75x103
Work speed	800-2000 books/hours
Air compressor	5KW
Machine size (L*W*H)	5800*2800*1800cm
Weight	1500kg
