

Paper roll unwinder

Gluing Unit

Main Machine Unit

### Machine Introduction

This machine is used for making series of paper straws in different sizes, widely used in food and drinking.

#### Features:

1. This machine adopts PLC automatic control with touch screen for high speed and easy operation
2. This machine with servo motor control for cutting in high precision
3. This machine is stainless steel for environmental protection

### Technical Specifications

| Model            | XGJ-A               |
|------------------|---------------------|
| Paper layer      | 3 layers            |
| Speed            | 35-40m/min          |
| Inner diameter   | 4.5-12mm            |
| Straw thickness  | 0.3-2mm             |
| Cutting knives   | 5 knives            |
| Cutting system   | Servo motor control |
| Gluing type      | Single/Double sides |
| Machine body     | Stainless steel     |
| Paper roll stand | 3 layers            |
| Glue unit        | 3 layers            |
| Belt             | 5 pieces            |
| Machine size     | 3500x1500x1200mm    |
| Weight           | 1400kg              |
| Power supply     | 380V 50Hz           |
| Working space    | 7000x5000mm         |

\* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
