Laminating  
Machines

### 01 Description

SLFM-1040 is a multifunction manual laminating machine. This machine can process solvent-based, water-based, and pre-glued laminating jobs. Adopting vertical complex laminating process.

### 02 Features

- 01 Can handle various laminating jobs: solvent-based laminating, glueless laminating, and pre-glued laminating
- 02 This machine adopts frequency control PLC that control the manual feeding unit, tension control for film, glue supply, and perforating unit
- 03 Configuration: Manual feeding + Coating + Auto Cut/Separation unit + Manual collecting

### 03 Technical Specification

|                              |                       |
|------------------------------|-----------------------|
| <b>Model</b>                 | <b>SLFM-1040</b>      |
| <b>Max. paper size</b>       | 780 x 1040 mm         |
| <b>Paper thickness</b>       | 125-500 gsm           |
| <b>Max. laminating width</b> | 1020 mm               |
| <b>Max. Speed</b>            | 45 m/min              |
| <b>Operating temperature</b> | 65-125 °C             |
| <b>Pressure</b>              | 12-16 MPa             |
| <b>Power supply</b>          | 3 kw                  |
| <b>Main motor power</b>      | 48.8 kw               |
| <b>Air Compressor</b>        | 1.5 kw                |
| <b>Weight</b>                | 2830 kg               |
| <b>Machine dimension</b>     | 5200 x 1900 x 2600 mm |
