

Machine Introduction

This machine is used in fine print after print processing machines essential. All kinds of paper printed matter treated by this machine are not only, improving the smooth finish of surface, and also damp proof, dustproof, sunproof and wear-resistant of for the surface of printed matter especially after UV vanish Processing. The effect is comparable to with laminating, calendaring treatment and no film-dropping, curly and back light defect.

Features:

1. The machine can be used together with calendaring machine, also can be separately used in glazing, UV vanish and vacuum forming oil.
2. The machine adopts inverter control and has reasonable structure and easy to operate.
3. Drive adopts Teflon conveyor belt, low noise, auto-correction. to prevent the deviation.
4. Reasonable internal structure can effectively prevent the leakage of ultraviolet light.
5. The internal, electric heat oven can be used alone Designed 20%, 40%, 60%, 100%, and automatic constant temperature.

Technical Specifications

Model	CYSG-1000M	CYSG-1200M
Max. width	950mm	1150mm
Paper weight	200-600g	200-600g
Speed	0-50m/min	0-50m/min
Overall dimension (LxWxH)	6620x1575x1500mm	6620x1775x1500mm
Total weight	2T	2.2T
Heating power	UV 16Kw & IR 15Kw	UV 16Kw & IR 15Kw
Total power	32kw	32kw

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
