

Machine Introduction

Box Type	(A max)	(A min)	(B max)	(B min)
Straight Line Box	580mm	110mm	580mm	90mm

Features:

1. The machine is running steady with strengthened single-side driving system, and it is also easy for maintenance.
2. The motor is controlled by a transducer (inverter) which is available for automatic timing. It is power saved and it helps to work stably.
3. Paper is feed by several thick belts under the help of vibration motor. Feeding is continuous, exact and automatic with this system.
4. Grinders are provided in both sides of machine, to make gluing more stable and firm.
5. The machine is able to fold and glue straight line boxes. In the prefolding part, the first fold and the third fold can be at 180° and 90°.
6. The second fold and the fourth fold are molded at 180°. Options for 180°-135° in pre-folding part is available.
7. An infrared photoelectric control system is in this machine. Pressing unit and counter will work synchronously with the feeding speed. Machine will slow down and stop running when no sheet there. And it's also able to reduce waste.
8. Small box like output size at 30mm is able to be done after the special design according to customer requirement.

Technical Specifications

Model	ZH-880PFT
Line speed	0-180m/min, continuous adjustment
Usage paper	250-500 g/ms, paperboard
Box forming	Straight line box
Fold method	1 st & 3 rd folds 90°, 2 nd & 4 th folds 180°
Paper feeding	Automatic feeding, grinding unit
Electric power	3.2kw
Dimension	7.5 x 1.2 x 1.5 m
Weight	2000kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
