

## Machine Introduction

### Features:

1. **Auto Feeder:** This machine is equipped with a paper pre-stacker, Servo controlled feeder and a photoelectric sensor to ensure that paper is continuously fed into the machine.
2. **Side Lay Regulator:** The Servo controller and Side Lay Mechanism always guarantees precise paper alignment.
3. **Electromagnetic Heater:** Equipped with advanced electromagnetic heater. Fast pre-heating. Energy saving. Environmental protection.

\* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.

4. Human-computer interface: A user-friendly interface system with a colour touch-screen simplifies the operation process. The operation can easily and automatically control paper sizes, overlapping and machine speeds.
5. Servo Separation System: Servo separation system to separate paper stably and rapidly with limited film raw edge.
6. High Speed Automatic Stacker: The pneumatic stacker receives the paper, keeping them in order, while rapidly counting every sheet.

## Technical Specifications

|                    |                         |
|--------------------|-------------------------|
| <b>Model</b>       | <b>SC-1050</b>          |
| Max Paper Size     | 1050X820mm              |
| Min Paper Size     | 300X300mm               |
| Paper Thickness    | 105-500g/m <sup>2</sup> |
| Laminating Speed   | 0-100m/min              |
| Gross Power        | 40/20kw                 |
| Total Weight       | 5000kg                  |
| Overall Dimensions | 6300X2400X1900mm        |
| Pre-stacker        | 1850mm                  |
