

ZXH-A1200 Non Woven Single Color Screen Printing Machine

Machine Introduction

Features:

1. Automatic feeding, printing, drying and collecting, saving labor and overcome the constraints of weather conditions.
2. Pressure equalization and thick ink layer, adapt to the printing of high-grade non woven products.
3. Various size of screen frame plate is available.
4. Multiple patterns can be printed simultaneously when do large format printing which is largely improved the work efficiency.
5. Minimum effective pattern printing gap low to 10mm before and after full-ptter printing, largely reduce the material consumption.
6. The driving of the whole machine and chromatography system adopts servo motor control, ensure the printing precision.
7. Printing position is accurate and stable. It can be used together with transverse cutting, slitting and non woven bag making machine, which is largely improved production efficiency.

Technical Specifications

Model	ZXH-A1200
Material unwinding width	1200mm
Max diameter of material roll	1000mm
Max printing size	1150x1400mm
Material basis weight	45-158g/m ²
Printing speed	500-1400m/hour
Total power	28KW/380V
Dimension	7500x1800x2200mm
Weight	3000kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
