

# HSQ-520

## Automatic Slitting Machine

Specifics

### Machine Introduction

HSQ-520 automatic slitting machine is the auxiliary products of automatic die cutting machine. It has functions of automatic meter counting, number counting, the unwinding is controlled by photoelectric eyes. The structure is compact with high speed, high efficiency, easy and steady operation.

### Technical Specifications

| Model                          | HSQ-520 | Mark      |
|--------------------------------|---------|-----------|
| Slitting speed                 | 120     |           |
| Max. web                       | 520mm   |           |
| Max. diameter for unwinding    | 500mm   |           |
| Max. diameter for rewinding    | 400mm   |           |
| Magnetic power                 | 1 pcs   |           |
| Magnetic power clutch          | 2 pcs   |           |
| Shaft for rewinding            | 2 pcs   | 76mm      |
| Web guiding                    | 1 set   | Kontec    |
| Mounting                       | 1 pcs   | Sick      |
| Slitting blade                 | 10 pcs  |           |
| Mainframe frequency conversion | 1 pcs   | Schneider |
