

Machine Introduction

Features

1. Applicable for all kinds of manual film laminator, polishers, pasting machine and embossers.
2. Feeder system adopted oil-free vacuum pump for feeding paper through suction.
3. The feeder and the transfer system are controlled through the servo controller (dual servo driver) in order to assure its precision.
4. Man-machine system: the user can feed the paper through entering the size of paper and the length and the speed of machine only by touching the displayer.
5. The feeder head applies synchronous wheel drive of closed loop step motor (initially).
6. Easy to install and operate, with stable performance property.

Technical Specifications

Model	SDSG-1100
Paper thickness	105-500g
Max. paper size	1100mm
Min. paper size	300mm
Running speed	0-75m/min
Dimension	2620x1800x1780mm
Power	3kw
Weight	750kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
