

Electrical Oscillating Tool Maximum Cutting Depth: **6mm** Available for More Materials

Machine Introduction

PK automatic intelligent cutting system adopts fully automatic vacuum chuck and automatic lifting and feeding platform. Equipped with various tools, it can quickly and precisely make through cutting, half cutting, creasing, and marking. It is suitable for sample making and short-run customized production for Signs, Printing and Packaging industries. It is a cost-effective smart equipment that meets all your creative processing.

Features:

- 1. High frequency electronic oscillating knife**
Material can be more various and thicker, to meet different cutting requirements.
- 2. Combine intelligent cutting/creasing/drawing functions-meet all your creative processing demands**
Cut labels of any shape, cutting, creasing any cardboard carton type.
- 3. Precise automatic positioning system**
With high-definition CCD camera, it realizes automatic and precise positioning of various materials, automatic contour cutting, solving problems of manual positioning and printing deformation, so as to achieve simple and precise cutting purposes.
- 4. Barcode Management System**
Scanning barcodes allows quick reading of cutting task.
- 5. Automatic feeding system**
Fully automatic feeding system makes the production more efficient.
