

ZXL-G700

Non-Woven Bag Machine With Side Gusset And Online Handle

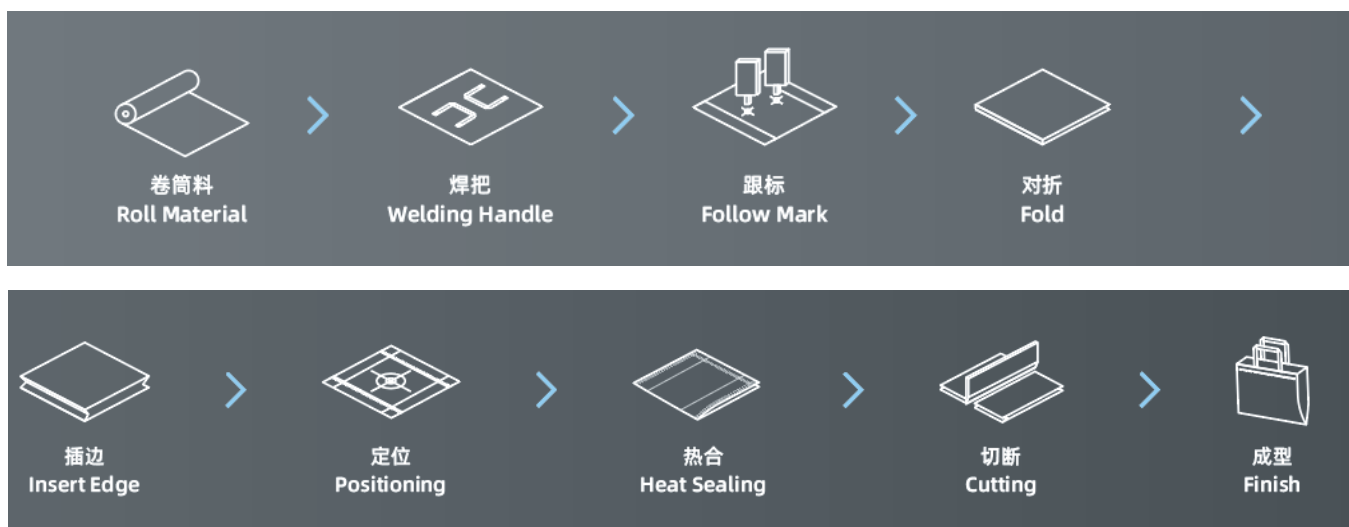

Machine Introduction

In view of increasing demand for non-woven handbags with gussets in domestic market, the traditional production process is difficult to meet the market demand in terms of output. In 2008, our company began to invest in the research and development of automatic non-woven bag making machine with side gusset and online handle. After 5 years of continuous research and development and improvement, the latest third-generation ZXL-G700 non-woven bag-making machine with side gusset and online handle will be launched in April 2022. The whole machine is 11.5 meters long, 1.9 meters wide, 2.1 meters high, and has no raw materials restrictions. Laminated and ordinary non-woven side gusset bag with online handle can be produced at a speed of up to 70 per minute.

The machine integrates electrical, and adopts LCD touch screen operation. With step-by-step fixed-length, photoelectric tracking, computer automatic positioning, computer automatic edge correction, accurate, stable, automatic counting, the counting alarm can be set, so that the finished product has a firm sealing line and a beautiful tangent. Quick start, stable operation and high output, it is a high-quality environmentally friendly bag making equipment that you can use with confidence.

PT. EKA MAJU MESININDO

Jl. Terusan Bandengan Utara No.16 / B 3-4

Jakarta, 14450, Indonesia

Tel. (021) 660 2665, 661 8255.

Fax. (021) 668 5874, 660 2657

Features:

1. The bag strip is neat and beautiful, easy to fix and stack
2. No need to organize bag strips, saving time and effort
3. Handle is accurate and the error is small
4. Fast start-up and high output
5. Internal bag strip

Advantages:

1. The investment of non-woven organ bag equipment is about 70% lower than that of non-woven three-dimensional bag equipment
2. The non-woven organ bag equipment occupies about 50% less area than the non-woven three-dimensional bag equipment
3. The labor cost of non-woven organ bag equipment is about 50% lower than of non-woven three-dimensional bag equipment

Technical Specifications

Model	ZXL-G700
Fabric roll width	500-1100mm
Production speed	60-80pcs/min
Bag width	200-450mm
Bag height	300-700mm
Handle loop length	380-600mm
Bag material basis weight (thickness)	50-100g/m2
Handle material basis weight (thickness)	50-100g/m2
Side gusset	80-200mm
Power supply	220V
Total power	18kw
Dimension	11500*1900*2100mm
Weight	3800kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
