

Machine Introduction

Adjustable Speed: Speed range 0-1000 books/hour (17 books/minute). The parameter is measured by the common pause time. **Adjustable pause time:** The pause time when the machine goes up to the highest point is controlled by the outside time relay. The user can adjust the time at any time. **Automatic power off function:** The machine will make the mainframe motor stop rotating without operation within 10 minutes. It can improve the operator safety factor and the machine working life uttermost. **Importing Variable-frequency Drive:** We apply the famous Taiwan variable-frequency drive brand. **Convenient for customer to install the electric:** Because it is applied by the variable-frequency drive controller, the machine rotation direction is right, no matter what's the three -phase electric phase sequence. The machine breakdown and the damage by the reverse power phase sequence and the opposite machine rotation can be removed completely.

Technical Specifications

Model	MF-SKJ380AS
Power Supply	380V/220V, 50HZ
Mainframe power	1.5kw
Work Speed	0-17PCS/minute (Adjustable Speed)
The Book Block Thickness	4-60mm
Hard Case Chipboard Size (Max)	360x260mm
Hard Case Chipboard Size (Min)	90x60mm
Machine Dimensions(L×W×H)	1820×930×2100mm
Machine Weight	540kg
Mainframe power	1.5kw

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
