Caishun Machine

Machine Introduction

ZF-330 envelope machine has both Chinese and Western usages. Paper feed parts employ the structure of bottom air-suction paper extraction, while air-suction transport avoids double-feed phenomena. Automatic four-edge indentation increases precision and reduces errors. Horizontal fold-parts use roller air suction. Paper jam decreases and paper bags can go through the fence smoothly. Traditional system employs bearing, synchronous wheel and timing belt to cut the noise.

Technical Specifications

Model	ZF-330
Maximum working velocity	18000 pcs/hr
Processing spec	Chinese envelope: 100x100mm – 160x260mm Western envelope: 90x100mm – 230x160mm
Applicable paper	80 – 157 gsm
Motor power	4.5 kw
Machine weight	1500 kg
Dimension	3000 x 850 x 1450 mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
