

Machine Introduction

Compared With the previous machine in this line, it has achieved remarkable improvement to be suitable for pocket envelope production as well as easy and reliable operation. This machine possesses parts of **sheet paper** feeding, folding bottom flap, and the first transverse fold with grid, then gumming (apply the **glue**), the second transverse fold with grid, creasing, longitudinal fold (bottom flap outside folding also), and with Counter and Tachometer, envelope collection and etc., Which guarantees good production quality.

Fax. (021) 668 5874, 660 2657

Machine with one spare parts

Both styles can be produced

Technical Specifications

Model	ZF120D
Max. working speed	28000pcs/hour
Thickness of paper	40—157g/m2
Pocket envelope finished size	Max 120*280mm, Min 35*50mm
Power of motor	1.5kw
Power of vacuum pump	3kw
Weight	1300kg
Overall dimension (L*W*H)	1920*900*1580mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
