

Machine Introduction

Paper dusting machine is an ideal equipment to clear dust on paper surface. After dusting treatment, paper coating or laminating quality can be improved further. The machine adopts frequency converter for speed variety and has the features of compact structure and easy operation. Thick and thin paper sheets are all treatable on the machine.

Features

1. This machine is composed of paper feeding table, dusting unit, receiving table, gear reducer, air pump and electric controller.
2. For dusting treatment, two brushing rollers brush powder from printing on paper surface first, and then air pump will exhaust the shed powder outside. Finally, the heating roller will stick away rest powder when paper goes through heating roller. Then dusting treatment is finished.

Technical Specifications

Model	CF-1000	CF-1200
Working width	950mm	1150mm
Paper thickness	≥80g/m ²	≥80g/m ²
Working speed	0-55m/min	0-55m/min
Gross power	6kw	6kw
Overall Dimensions	2700x1530x1200mm	2700x1730x1200mm
Weight	1000kgs	1200kgs

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
