Machine Introduction

New-generation three-dimensional box machine is molding equipment specialized in producing various paper products, which can produce hamburger box, square box, food box (portable outside), and other boxes made by paperboard and corrugated paper.

Features :

1. The characteristics of a new generation of 3 d carton machine has stable quality, high efficiency, top speed of 160 PCS/MIN.
2. The versatility, can be on the same machine, only need to change the moulds can make different sizes of boxes, boxes, hamburger boxes, chip boxes, and other products.
3. The machine use water-based adhesive glue device, can achieve high efficiency, high accuracy. Water-based glue is a water-soluble adhesive for food-grade use glue (high security).
4. Most of the machine adopt sealed bearings with high quality, long life and good stability.
5. The machine adopts PLC intelligent control system. Replace with pine
6. The main mold material, mold with high efficiency.
7. Can automatically collect accumulation, counting the finished product.
8. Are all made of high quality chain drive, almost no error in the process of the machine running.

Paper Delivery Device: Transmit width can use the threaded rod adjustment easily.

Gluing Device: Bonding method of standard cold water glue roller wheel and any form of glue, glue can adjust at will in the production.

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.

HBJ-800

Fully Automatic Hamburger Paper Box Gluing Machine

Forming unit: Formed by stamping mechanical connecting rod type structure, it has a simple structure work stability. Die height is adjustable and can do all kinds of shapes, taper carton, special flip burgers box of an ideal choice.

Open-the Finished Product Collector: Molding box big minor is through the hand wheel adjustment, simple and convenient, can change the mold.

Technical Specifications

Model	HBJ-800
Paper standard	150*150--500*380 (MM)
Raw materials for paper	200-600g/m2
Paper thickness	Max thickness: 1.5mm
Speed	30---160pieces/min
Send paper max width	550mm The input voltage
General motors	4KW Three-phase 380V/50Hz
The weight	1800KG
The machine size	3500*1200*1600mm

Main Components

Linear guide way		Taiwan HIWIN
The belt	EVER-POWER(EP)	USA
Solenoid valve		Taiwan AirTAC
Electrical components	Low-voltage apparatus	
	The inverter	
	Time relay	
	PLC	
	Touch screen	

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
