

HTXG-450/550 Drinking Straws Automatic Counting & Packing Machine

Machine Introduction

Features:

1. Control circuit using PLC, smart chip and with a touch-screen display, measurement precision, electrical fault auto-detection, simple operation, easy adjustment.
2. Mechanical formula function (memory function: store has been debugged program), to avoid repeated several times during debugging packaging similar material waste products of similar specifications, saving more time costs, improve packaging efficiency.
3. Intelligent discharge detection, optimization of online function, effectively prevent the loss of materials and packaging materials. Using high-quality dual-frequency simple mechanical structure, easy maintenance, long life, less wear and tear.
4. High precision photoelectric detection tracking (film color standard tracking) bi-directional automatic compensation, accurate and reliable.
5. Drinking straws calculated by counting wheel, Servo motor control, more accurate.
6. Packaging speed and length of bag with double frequency converter control, infinitely variable speed, arbitrary adjustment range, the procedure can perfectly match the production line.
7. Stainless steel conveyor table, and the host part of the spray paint can also be handled according to the customers' demand with stainless steel.

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.

PT. EKA MAJU MESININDO
Jl. Terusan Bandengan Utara No.16 / B 3-4
Jakarta, 14450, Indonesia
Tel. (021) 660 2665, 661 8255.
Fax. (021) 668 5874, 660 2657

HTXG-450/550 Drinking Straws Automatic Counting & Packing Machine

Other features:

1. High-efficiency-packing, Steady performance, convenient operation and maintenance, low-rate fault.
2. It can continuously work for a long time.
3. Sealing is good and packing is also very petty.
4. Can be synchronous print production date, wearing suspension holes and other equipment according to customer needs.

Application:

Be applied to packing circles drinking straws, tubes, pipes (straight not bend). such as plastic drinking straws, paper drinking straws, or drinking straws of milk tea, coffee, coke, soybean and so on.

Technical Specifications

Model	HTXG-450/550
Packing type	Trilateral closure H
Packaging film thickness	0.018-0.06mm
Max film width	420mm
Drinking straws length	150-250mm
Bag length	150-420mm
Packaging width	80-180mm
Packaging height	≤ 90mm
Maximum packing capacity	8-25bag/min (depending on materials)
Total power	220V/3kw
Dimension	2600x1080x2200mm
Overall weight	600kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
