

Machine Introduction

GDHH model Paste box machine belongs to the equipment with four-folded/edged-bottom. The machine is able to 2-folding, 4-folding with bottom gluing. In the pre-folding part, the first fold and the third fold can be exchanged by 180 degree or 150 degree. The second fold and the fourth fold can be molded in 180 degree; the special design is also available. Use of imported electrical appliances, and accessories for export. Before and after the single inverter separate operation. Speed, reasonable structure, convenient and flexible operating characteristics. It is suitable for the paste process, such as the edged-medicine box, wine box, cosmetic box, CD box and French fries box etc. As well as pasting the paper box without edged-bottom.

Technical Specifications

Model	GDHH-800	GDHH-1200	GDHH-1300
Linear velocity	0~220m/min		
Suitable paper quality	220/800g/m ² card paper and E wave corrugated paper		
Paste box basic form	One-side edge pastes, two-side edge pastes, base pastes. Both sides are folded, both sides are pre-folded. In order to be convenient to paste.		
Way of folding in reverse	One and three fold 90°, two and four fold 180°		
Feeding Way	Automatically and continuously feeding		
Adhesive	Solute type		
Needed power	380/420V 8KW		
Overall dimension	9200x1100x1350mm	9200x1300x1350mm	9200x1400x1350mm

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
