

Machine Introduction

The machine is suitable for cutting the large coiled material, such as paper, paper plastic complex material and color printing complex material, etc. This machine is widely used for application in the industries like paper processing and printing packaging.

Features:

1. The machine is suitable for cutting in longitudinal direction and cross direction the coiled materials like paper trademarks, cigarette labels, wall calendars, wine boxes, playing cards, paper-plastic compound materials. Etc
2. Function: transverse cutting with flat blade, automatic feeding, and photoelectric tracking, photoelectric detector, quantity of electric charge control, frequency control, length-set unit, auto counter, sound control alarm.

Technical Specifications

Model	DFJ600-1700
Transverse cutting speed	80-100m/min
Width of transverse cutting	200mm
Length of transverse cutting	20-1500mm
Fixing precision	± 0.3mm/pcs
Capacity time	20-150times/min
Main power	7.5kw
