

Machine Introduction

Servo Precision High Speed Sheet Cutter apply the advanced imported technique. The servo motor, AC transducer, the conveyor belt and pneumatic vibrator apply international brand; the electrical system adopts SCHNEIDER & OMRON to make the cutting speed fast and stable. Germany precise bearing and cutting knife assure the high cutting precision. The touching screen makes the operation easy. The anti-curve rack assures the paper flat. This machine is the paper processing machine which is very popular in the paper making and printing industry. It can improve the efficiency and benefit of your work.

Features:

1. Imported AC servo and PLC control system are adopted to make the cutting speed of the machine faster, more accurate and more stable
2. 10-inch human-machine screen double touch screen (with Internet of Things), and has a self-diagnostic function, making the operation simple and convenient;
3. With recurve structure to make the paper flat and smooth
4. This machine is suitable for a wide range of applications, such as cardboard, coated paper, kraft paper, cultural paper, double-coated paper, gold and silver cardboard, tobacco and alcohol packaging paper, aluminum foil paper, laser paper, etc. The King of Paper has a wide range of applications, such as cardboard, coated paper, kraft paper, cultural paper, double-coated paper, gold and silver cardboard, tobacco and alcohol packaging paper etc.

Fax. (021) 668 5874, 660 2657

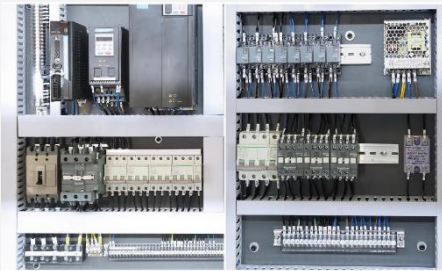

Machine Part

Internet of Things: It can dynamically track, realize the synchronization between the management background computer or mobile phone and the machine screen, monitor the technical parameters such as the running speed of the machine and the number of paper sheets in real time, record information such as early warning and alarm, and realize remote program update and upgrade, as well as remote guidance. Machine maintenance.

The control center adopts Siemens PLC

Adopt Imported Electric components such as Schneider, Panasonic, Inovance and Idec

Floating aluminum roller deviation correction device

Adopt high-precision screw device, equipped with tungsten steel blade

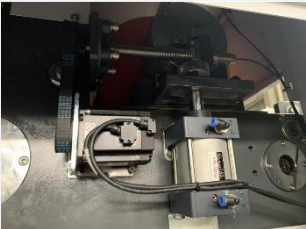

Adopt sun wheel paper delivery device and rubber roller to press paper.

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.

	The conveyor belt adopts Chinese, Japanese and other brands
	Equipped with the pneumatic automatic lifting function of the delivery baffle, which is convenient to operate and easy to enter and exit the paper stack.
	Double arm hydraulic shaftless discharge rack
	Guowei uses a large recurve device, which is different from the small recurve devices of other manufacturers. Adjust the paper warp caused by curling of the roll paper so that the paper is flat after cutting. Effectively improve production efficiency, increase production capacity and efficiency.
	Adjust the knife part: Using ball screw, more accurate, automatic diagonal device, to ensure paper accuracy, more convenient operation
	Left and right adjustment at the paper receiving table, use a ball screw; the paper receiving table lift is composed of chains and guide rails on both sides. The paper is more stable and the paper is neat and tidy.
	Equipped with label inserting device, and adjustable function of receiving paper vibration.

Technical Specifications

Model	GW1400-4	GW1400-6
Cutting type	Single rotary sheeter	Single rotary sheeter
Applicable range of paper	45-550g/m ²	45-550g/m ²
Max. paper roll diameter	1800mm	1800mm
Max. paper-cutting width	1400mm	1400mm
Range of cutting length	450-1450mm	450-1450mm
Cutting sheet number	2 sheet	2 sheet
Cutting precision	Cutting length ≤1000mm: ±0.5mm	Cutting length ≤1000mm: ±0.5mm
Max. cutting speed	300 cut/min	300 cut/min
Max. feeding speed	300 m/min	300 m/min
Max. paper stacking height	1500mm	1500mm
Air pressure source requirement	0.8Mpa	0.8Mpa
Power	380V*50HZ	380V*50HZ
Gross weight	15600KGS	18000KGS
Full-load power	26kw	30kw
Dimensions	16600×3920×2300mm	21200×3920×2300mm

Technical Specifications

Name	Brand Model	Origin
Dual computer display screen (With IoT)	FLEXEN 10 inches color touch screen	Joint Venture
Ball lead screw	Ball-lead screw	China
Double rack	Sun wheel receiving paper positioning	China
Control center	PLC/ SIEMENS PLC	Germany
Servo drive	Imported brands	Japan
Servo motor	Imported brands	Japan
Servo drive	Panasonic servo drive	Japan
Overload protection switch	Schneider	France
Relays	Schneider	France
Contacteur	Schneider	France
Air switch	Schneider	France
Start button	Schneider	France
Locating switch	Schneider	France
