

SW-900

Automatic Grooving Machine

Carton Box Machinery

Grooving Machines

01 Description

The machine is special designed for make V and U type groove, use for industry-cardboard, hardboard, cardboard, plywood, grey board, copper printing paper, coated art paper, chrome paper, Ash-cardboard, MDF board and other several of cardboard. It is suitable for make many types of boxes. The machine has high accuracy, dustlessness, little noise, highly effective, energy conservation, environmental protection.

02 Features

- 01 Mechanical automatic feeding system, powerful suction, feed table auto-up & down
- 02 Auto-correcting function to keep accuracy and reduce error
- 03 Waste material will be sent out automatically after grooved
- 04 Final product will be collected automatically
- 05 Auto-stop system for board seized up
- 06 Each cutting blade could move left and right by itself
- 07 The counter is used for record the number of production
- 08 The wheel is used for adjust grooving degree from 80°-140°
- 09 Special use knife grinder, usually grind one piece of cutting blade need 2 minutes only

03 Technical Specification

Model	SW-900
Width of cardboard	130-850 mm
Length of cardboard	130-500 mm
Distance of each groove	0-800 mm
Thickness of cardboard	200gsm-2.5mm
Total cutting knives	9 pcs
Grooving degree	80 -140° Adjustable
Production speed	40 pcs/min (size: 400x400)
Power	3.7kw/380V
Dimension	2150x1350x1400 mm
Weight	1600kg

* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.
