

### Machine Introduction

Model of TYQ601C machine is one kind of double functions machine which used for hot stamping all kinds of colored aluminum foil printing upon paper, paper board, leather, plastic materials and creasing upon Self-adhesive paper, paper box. This serial with complete specifications, customer could choose depend on their own products.

#### Features:

1. Machines features are mature technology
2. Heavy pressure
3. Large heat-printing area
4. Stable performance, easy to operating and maintenance

\* Warna dan spesifikasi mesin bisa berubah sesuai dengan perubahan spesifikasi pabrik.

### Technical Specifications

|                        |                  |
|------------------------|------------------|
| <b>Model</b>           | <b>TYQ601C</b>   |
| Max. platen area       | 720×380mm        |
| Max. stamping area     | 420×300mm        |
| Foil-delivered length  | 300mm            |
| Foil-delivered group   | 2 Groups         |
| Skip frequency         | 1-99times        |
| Working speed          | 27±2times/min    |
| Temperature range      | 1-170°           |
| Electric heating power | 2kw              |
| Main motor power       | 1.1kw 6H 380V    |
| Weight                 | 1400kg           |
| Dimension(L×W×H)       | 1150×1250×1550mm |
